the layout has been upgraded from 780px wide to 960px wide. I had comments from the users that it was too narrow, and a wider design would help the site, and I agree.

Either you can go alone or your wow gold teammates can party up. We have cheap runescape gold found in the game it is buy wow gold world of warcraft account usually better world of warcraft gold to all just stay in the rift gold party throughout the game, maybe in buy rift gold the later levels you can afford rift platinum to go solo, but it is rs gold for sale usually not recommended I think. When cheap rift plat you party up all the rewards (items) and experience you get in the quest is divided up among all of those who completed it.
