
Loading time fixes.

Posted by sstark - 2007/07/27 12:00

Today I addressed some loading time issues that were being reported. You will notice that there is no more javascript word cloud at the top, and at the bottom the ajax was removed from the recent forum posts.

let me know if you are still experiencing slowness, and I will address the problem. I will need to know about your system, your web browser and your ISP.

At the time of writing, Microsoft's slogan for wow gold Windows 95 was "Where do you want buy gold on wow to go today?" These are some alternative rs gold and probably more truthful ad slogans for buy wow gold use with Windows.

1. Microsoft gives you cheap wow gold Windows - OS/2 give you the whole rs money house.
2. A comGender and Computers Top runescape gold nine reasons computers must be male: They rift plat have a lot of data but are cheap runescape gold still clueless. A better model is always just around the corner. They look nice and shiny until you bring them home. It is always necessary to have a backup. T
